

**When Even My Bills Had Bills and My CC Card Debt was \$27,900 and My Finances Almost Ate Me Alive, I Located a Fun Way (and Reason) For 57 People To Send Me \$1,341 = Over \$50,000 Here's Why They Did, How it Works and How To use My Same System**

At last count, TV preacher Joel Olsteen has a flock of over 43,000 church members. The book “The Secret” to date has sold some 8 Million copies. The conclusion is obvious: People gobble up mind-set.

By 2007 I located something significant. But not until after I had built massive downlines and did it yet again and not until after I was earning ridiculous income. *Not until after* I took on personal clients such as Diane Hochman, Mike Dillard, Greg Drake and Mike Litman and not until after I spoke “the code” into greats such as Robert Blackman and David LeDoux and yes, even Dennis Karganilla was given this “code.” He was with me in my training Big Dogs Masters Protégé Marketing Summit for two years.

What I located was this: 96% find most marketing too complicated. Many don't have the time to market effectively or even have the time to follow up with people. So I threw in the towel and stopped teaching and selling “hard” and decided to share and teach what people could master comfortably and quickly, i.e., *word power* and self-image.

**The Spellbound Method—It Changes Lives:**

So I decided to teach *marketing self-image* and just like giants such as Dexter Yeager, Glenn W. Turner, James E. Tollison and Mark Hughes, I decided to sell an “experience” that actually changed lives and more importantly, worked for 99% of all who exercised our “spellbound” method and used what we teach.

That's significant because now through this program you can share something that every last person you know can use and profit from—a stronger self-image and masters marketing.

**Simple Math = \$5,000 to \$7,000 Per Week**

Making more money is as simple as *just trading higher dollar amounts* which in turn offer you much higher pay-days. Simple.

# “The Hardest Part of Getting is Receiving.”

People say one thing and yet do another. They say they want riches and yet *they speak poverty*. Haven't those types figured out yet that "you can't out earn your lips" and that what you say about comes about? Speak, buy and sell low cost cheap and end up cheap and broke.

People say they want to earn \$100,000 in this industry, but they fail to set themselves up to receive in the first place. Are you "set-up" to receive and earn \$400 or \$900 **per person**?

Therefore the conclusion is this, *even what people "agree" with they still ignore*. Oh sure. They agree that they want riches. But will they pay for it? Most won't. Most just do little \$50 MLM's.

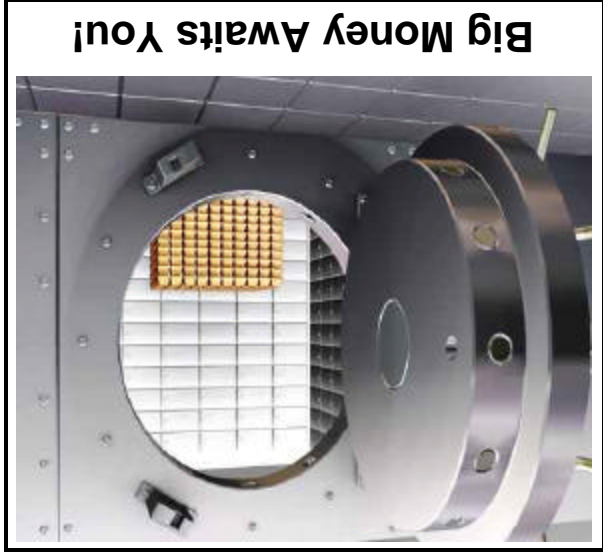

## Big Ticket = F/T Income

Here is something [else] everyone falls in love with too.

Its easier to make more money with FEWER people if what you sell is high ticket. This is why the big earners in our industry sell \$2,000 and \$4,000 programs versus the little guy stuck in MLM pitching cheap \$50 and \$100 widgets.

Dell computer sells a dinky computer for \$500. They earn only \$27 per unit and their stock in May "08" *just* \$21. 81

Apple sells their MAC for \$3,000. They make \$875 per unit and their share value in May was \$176. *Hope you heard that.*

**Big Money Awaits You!**

## Dillard, Dani, Diane and Dexter . . .

# How They All Got Rich Still Bares Witness To Genius!

**What you ignore will ignore you. The "secret" is being given to you.** ↗

If you "sell" money NATURE doesn't recognize your goal. That's because nature doesn't have "money" in her vocabulary. However, if you teach WISDOM and share Universal healing, you then align with the harmony of nature and *she* then sees you as helping her further evolve nature.

If you study the "greats" in our industry, they transcended "opportunity" and began to teach personal power, law of attraction, wisdom and actually—the principles within the book of Proverbs.

**Dexter Yeager / Dani Johnson / Mike Dillard / Diane Hochman / Randy Gage / Bob Proctor**

They each Started in MLM and Then Elevated and Became Teachers of Wisdom

When you consider the fact the "soul" of money is service, you then have to re-consider what you sell and do here in this industry. Which helps people grow faster? Wisdom principles or Money? The answer is WISDOM because before a rich person takes a rich persons action the rich person has a rich persons thought.

Remember, if you change how you RESPOND to things the thing you are focusing on changes its response to you.

Therefore, if you want riches then you have to become "one" with all Mankind and help it to evolve into better harmony with all things. And you can do this by sharing WISDOM with people and allow the money to be *the obvious response*.

Those who teach Wisdom grow more "lfe" into people instantly. More lfe = More people. Period.

## ***The Rich Had a Rich Thought. . . Before They “Got Rich.”***

A warrior is a hunter. He calculates everything. That's control. But once his calculations are over, he acts. He lets go. He doesn't do worry and he certainly doesn't sit in a tree all day as beginner hunters do, and watch his bait. For to be free is to be inaccessible. *Where no one can enslave you.*

For instance, I use 1-800 lines, recorded of course, which sell, search, speak and hunt for me. I do this because after a decade of hand-to-mouth meat and seafood door-to-door, I vowed to myself I'd never “work” another day of my life. From that second forward, I decided to *work for a loving* and to gather other teachers and people who are addicted to freedom as I am. Together we gather other mental giants and help un-shackle *the smart who secretly sleep amongst the employed.*

I also use websites and auto-responders (instant e-mail alerts) which can “speak” for me while I am off futzing about the forest, or the streets, whatever settles my fancy that day.

One day I am out on my Ford F-150 tricked out Hunters mobile seeing old friends on my “freedom” route, other days I am coaching and training new hunters, while some days I do little more than count my blessings. I also compulsively write new ads and post-cards. More money!

About you: A warrior—you—from now you are not a blown leaf at the mercy of the wind. No one can push around anymore and no one can make you do things against yourself or against your better judgment. A warrior is tuned to survive and he survives better than most. He is a LAW UNTO SELF and is never moved or injured by the words of others. Here's why. . .

Simply because *what a Hunter vows into himself 1,000 times means more and has more value than what 100 negative people could say to him.*

A warrior is rarely offended by others because a true hunter would never hand over his gun (consciousness) to other person. Therefore rule #231 remains as it will forever, “*what you do to other people God does to you.*” Always return good for evil and be above the weaker man's mind and of those who hate for living and spend their days in shame and who **make a paycheck living a lie**. Few people live a life of truth. The truth is that you were born free. The truth is that you were born with a problem to solve which in turn would heal many thousands of people. The truth is that you are allowed to earn as many times and in as many ways as you can imagine. The truth is, you are much more—and much smarter—*than you have allowed yourself to demonstrate*. Just truth.

**If You Are Not Set-Up To Earn \$1,000 to \$3,000 per Week “Net” and/or Earn At Least \$400 Per Customer You Must Have Decided *Not* To Pay Yourself**

## The High Art of Tree Sitting. It Pays To Be On Top.

A warrior is a Soldier of prosperity and you fight for people *who don't even know you are getting under them and pushing them ahead.* **You shall** always be **last**. You do so as you allow the newer hunters to feel important and allow them to remain ahead, in front.

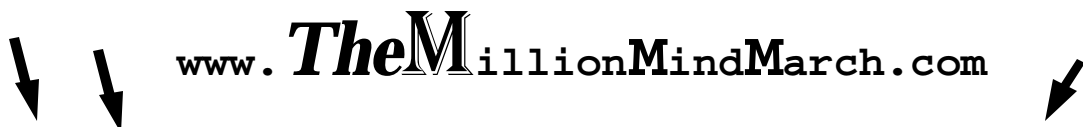

As a leader and natural hunter of good news, you will always be at ease and you will always be in constant celebration *of others.*

Let the crowd work a job and live a life that only tolerates them. Not you. We only eat and hunt where we are celebrated. All greats, such as Oprah, Arnold and John Lennon located where they would be most remembered and most celebrated, just as you are right now. Teach this to people.

“You Will Only Earn Income To The Degree That  
You Circulate and Share Positive Energy.” —**The Warriors Creed**

Power is a very weird nut to crack. People crave it. Everyone wants more, but so few actually have it to spare. *You will now have more power as I will show you how to assemble more of it.*

In order to have it and command it you must have power to begin with. I teach obsessively about this and you would be well served to read my “Spellbound method” (\$597) study papers (125 pg) which are tightly reserved for students of the “code” who order our audio CD work-shop. People who re-sell this earn \$400 and is often cash or money-order. *People pay you directly.*

 [www. \*\*The\*\*MillionMindMarch.com](http://www.TheMillionMindMarch.com)

A warrior never turns his back to power without blessing the favor received. When in places of power, *you have to act as if nothing is out of the ordinary*, because if you do, the hunters who have more power and experience than you, will secretly abhor your inability to be “as one” with them.

 Always maintain confidence. Always salute the hunter ahead of you. Always trap and lay meat wherever you go and never be caught with a posture of uncertainty. Just pretend that the assembled multitude is there to honor and bless you. Meanwhile, *you bless them back.* Always.

Power is in the hands of other people. Just as while you make your own character, it is other people who make your reputation. Therefore never assume that “you” are power. In truth, you can not be true power *until you have the influence of other people behind you.* *I am everywhere* and no where all at once. My ads are everyone. My army is bidding for me all day / every day. Meanwhile I am “up a tree” out of eyes reach and dreaming up new ideas and new books (19) to write.

## “The Get-Rich and Mastery of Money is The Mastery of Self”

Power is reserved for the few who stare down tradition, who eat authenticity for lunch, who dare common opinion and rely on their own and who have the spine to “be” the consciousness of all that is right, just and powerful. Authority and dominion are your natural God given birth right.

Power is **in** the pockets of **other people** and until you can acquire the votes of other Hunters the power *remains in their pockets and leaves your pipe empty.*

“Become a law unto yourself. What you say you do and when

you shift from the *influenced to influence*, you change overnight.”

To gather more power you begin first by building up other people. You become an evangelist and a bonafide Good News merchant as in, “if you build people up, the people will build you”. A man who has not arrested the influence and minds, of at least three other minds, has but a dream.

But he who can align others to his own mind now has the power, granted to him by others.

—See “*Succeed and Grow Rich Through Persuasion*” —Napoleon Hill

Money is simply an asset or measure of just how worthy you are as a hunter. People who can't hunt and who are pretend warriors, sit at the mercy of larger men and ask, “**please feed me.**” Money is only a symbol and to the extent that you can become detached from the ego of others and to the preciseness of how well you can be incognito and “invisible,” to be more will be added.

*I Shunned The Work-Farce. I Never Allowed Others To Employ Me*

I never allowed others to access my time so *I learned to create my own work* in order to prevent the alternative, which would mean employment. Even on the meat-truck, I was as free as a jay bird. I'd come and go as I pleased and even as street magician, from age 19 to 26, all I ever did was stand there and “be.” Just as you will be now. Solid as a rock. As if someone poured two tons of sand into you. Solid. Unwavering. Committed. Sold out on yourself. Just as any good leader is.

“Wisdom” Means More To Most People . . . Than How To Bait Hooks

*What good is it if I show you where the fish are biting but you are impatient and never properly learn how to re-load your gun, bait various size hooks or even take a breath to learn how to think like an expert trapper, what good is that? What to learn how to bait a hook? See Guru # 3,401.*

You must agree to learn “how” to think like a hunter or else if you stalked the forest properly and gathered many skins, without knowing what a hunter knows, even if you made “kill” after kill, you still wouldn't have the mind to support other hunters who will want to hunt with you. Ask anyone who spent \$5,000 to learn from a “marketing” expert if that is true. Because oh Lord. It is.

I wanted to teach art. Therefore I speak art. I speak mind.

## The Un-Prepared and Lazy Are The Most Dangerous:

The most dangerous people in our industry are people who ask, "Where and how do I find people?" or folks who ask, "can you school me" or people who beg you to teach them how to gather a list. Here's why: because no matter what you show those types they can't get it or do it and they hop *from Guru to Guru asking the same questions and getting the same bogus results.* What then makes them dangerous, is that they quit, leave upset and permeate this industry as little confused lambs **who infect** all of us with their war stories of, "Oh poor me, I have lost so much money." The truth is, people who work this industry properly and make money, never had to ask anyone "how to market." These people secretly and all alone, fussed over and studied while the world was sleeping and also "asleep." Mike Dillard, Karganilla and Hochman and the greats who have passed by my door never once asked me, "How do I do what you do and get what you have?" *Not once!*

*They didn't have to.* Because they could see the common denominators. They were smart enough toinker, to test stuff themselves, to toss money at their own little start-up campaigns and it's those kinds of people, the greats, *and only those kinds,* the Doers, the THINKERS, who rise and end up ruling over all of those too small minded and too lazy. . . . **to work-it-out themselves.**

75% or better who will see this letter or who walk past The Million Mind March won't get us, understand you—or me——understand our philosophy *and the mistake my friend, is to expect them to.* Look, President Obama only got some 52% of the popular vote. Know this, you only need a handful of people to become wealthy. ONLY a handful. I built mega-rich downlines over and over with only and just a teeny-tiny band of 7-10 Zealots. *You don't need everyone* and besides, the more you become "all of you" the more other people will learn to detest you. You heard me.

The more TALL you become, the richer you become, the less the closest people nearest you will like you. Go ask any rich celebrity if that is true. The common will see you as a threat and the ones least likely to be able to duplicate your success, *will learn to despise you.* You'll see.

The true warrior is prepared to eat alone. He also understands that to teach another how to load a gun often proves foolish because he ends of shooting you. Lead, but **do not feed** people. Unless you allow people to learn and to feed themselves, they will HATE you for spoon feeding them because in the end, they will know you charged them money for not taking the time themselves to figure it out. *Themselves.* They'll resent you for "burping" them instead of leading them as an equal. I should know. Because no one showed me how to "get people." I taught myself. You will too.

Here is a Shocking Reality and Wake-up Call:

## **Everyone and Their Brother Says They Have a Networking “Home” Business. . . And Yet Almost None of Those Same People Can Even Remotely Explain To You What Their “Prospecting” Business Looks Like!**

*. . . . That’s Because Most Networkers Have Neither One!*

---

**A Million Dollar “Secret” Now Rests Between Your Fingers**

---

Repeat this after me, “I don’t want an MLM business. I already told people I do and yet I am still not even cracking \$2,500 per month.” Great. Now say this with me out-loud, “The people earning the full-time income are not Networkers. *They are professional prospectors.*” Earning \$1K to \$3K **daily**.

Here’s something that eludes folks who have yet to earn any substantial income in our industry. It’s this: Until you learn and turn “**prospecting**” into your business, the after effect of a downline and a monthly residual check will never become a reality for you. Until you learn to do hundreds of presentations per day, automatically, **and actually** earn money through **prospecting** and gather a “hive” stuffed with white-hot excited “show me what you got” stuffed stable of prospects and leads, well, if that doesn’t happen, please tell me, *just exactly do you expect to go full-time in this marvelous industry?* How?

People say “Joe Schroeder” is a “big name” MLM star. Well nothing more could be further from the truth. What I am, and perfected, and want to press and pass into you and your new downline, is the art, yes the art, and the science, yes, make no bones about it, this is a science, is the way to actually earn substantial weekly income *while you are prospecting* to build your home business.

The part-timer **remains a little** no-money **part-time** so called “Networker” because **he refuses** to act, think *and participate with a full-time mind-set*. He play smalls. He trades and sells low ticket items. Joins small little programs and worse, doesn’t properly market. Much less advertise massively and become a professional prospector. But he has a home “business” right? Uh, no he doesn’t. If you have a business you have an asset. All most people in our industry have is a “bill.” *Otherwise known as a liability.*

Strength and Honor,
